
Raising Awareness, Supporting Families, Funding Research, ***Finding a Cure***

Thank you for your support of the Cure JM Foundation. Juvenile Myositis (JM) is a rare autoimmune disease with about 3 new cases per million children diagnosed every year. JM causes a variety of debilitating symptoms including muscle weakness, joint pain, fatigue, rashes, fever, calcinosis, and even swallowing, lung and digestive problems. Your generous donation will be used to raise awareness of this disease, maintain a network of support for families of JM victims and fund the research necessary to eventually wipe out JM forever.

DONATION AMOUNT (in U.S. Dollars)
